

Sensory Bounce® Therapy

So much fun, they won't believe it's therapy

Sensory Bounce® Therapy is a sensory, motor and social skills Occupational Therapy program combining therapy and play for children with:

- ADHD
- Autistic spectrum disorders
- Sensory processing, motor and social skills difficulties

Sensory Bounce® Therapy builds social skills:

✓ Eye contact ✓ Turn taking ✓ Team building
✓ Impulse control ✓ Frustration tolerance ✓ Sportsmanship

Sensory Bounce® Therapy develops sensory motor skills:

✓ Balance and coordination
✓ Body in space awareness
✓ Motor planning
✓ Bilateral integration

Sensory Bounce® Therapy:

- **Developed by an Occupational Therapist with 30 years experience**
- **Small group classes run by an experienced Occupational or Speech Therapist**
- **1:2 adult to child ratio**
- **FREE parent support group is held simultaneously**
- **Participants receive an insurance-ready receipt***
