Psychological & Educational TESTING SPECIALISTS

Clarity and meaningful direction at every age

CHILDREN | TEENS | COLLEGE STUDENTS | ADULTS

When learning, attention, emotions, or everyday functioning raise questions, an individualized evaluation can identify strengths, clarify challenges, and guide next steps.

Who We Help

Children and teens: Dyslexia, reading, writing, math, ADHD, anxiety, learning differences, IEPs and 504 Plans.

College and graduate students: Learning, attention and executive functioning concerns; academic and testing accommodations.

Adults: ADHD, longstanding learning challenges, organization, anxiety, diagnostic clarification, and workplace or professional-exam accommodations.

What Makes Our Approach Different

Timely, personalized evaluations and recommendations. We provide clear findings and practical next steps tailored to each individual's needs and goals.

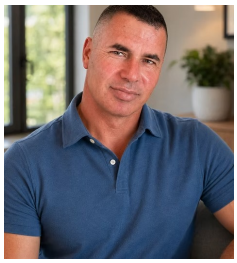

School experience that makes a difference. Our extensive backgrounds in special education, Child Study Teams, public education and administration help families understand school processes and collaborate constructively with school teams on supports, IEPs and 504 Plans.

Educational and clinical perspectives. Together, we address learning, attention, cognitive, executive functioning and emotional concerns.
