

About Us

There are normally very complex and deeply personal reasons for falling prey to such a debilitating disorder. Our belief at North Jersey Medical Center is that treating an addiction is only part of the whole, or at least identify where the greater problem lies.

We use our own unique program and practice in a safe and warm environment of mutual understanding. We aim to put you back in control of your life, help you reconcile with your past, and empower you to embrace the future.

Intensive Outpatient Treatment

The Intensive Outpatient Program offers a day or evening three hour schedule of group programming based on the 12 step model of care.

The day program meets Tuesday, Wednesday, and Thursday from 9:30 a.m.-12:30 p.m. The evening program meets Tuesday, Wednesday, and Thursday from 6 p.m.-9 p.m. The program includes psychodrama, family participation, counseling, and spiritual guidance. The treatment team, consisting of licensed certified drug and alcohol counselors or certified drug and alcohol counselors, will determine the frequency and length of attendance based on close monitoring of the client's progress in treatment. An introduction to Alcoholics Anonymous and Narcotics Anonymous is an important part of the treatment process. Clients are encouraged to attend and to participate on a continuing basis.

Outpatient Treatment

Your personal history and circumstances make your addiction unique to you. This service is tailored for you and your addiction, and focuses on educating you and making you strong enough – in mind and body – to be well. The primary goal of the Outpatient Program is to successfully treat clients in the least restrictive environment. All participants are closely monitored and receive appropriate referral services dependent on progress and reaction to treatment.

Gambling Addiction

At North Jersey Wellness Center, we understand the heartache and pains of addiction and the strength that can be gained from successful treatment. Take advantage of this no-cost service to help in your healing process. This service is certified by the Council on Compulsive Gambling of New Jersey and is also offered to family members who are 18 years or older.

Adolescent Treatment

At North Jersey Wellness Center, we offer an array of services, including treatment mandated by the courts or school systems. By providing an individualized and personalized approach, we can help you fulfill such requirements and seek recovery.
